

REIGNME BURDEOS

FULL STACK ENGINEER | NEXT.JS SPECIALIST

Butuan City, Caraga, Philippines | reign021b@gmail.com | <https://myportfolio-reignme.vercel.app/>

SUMMARY

Full-Stack Engineer with a proven record of designing, building, and deploying scalable, responsive web and mobile applications. Specializes in **Next.js** and **TypeScript** for high-performance, SEO-optimized products, with strong proficiency in React, React Native, Node.js, and Supabase. Experienced across AI-powered platforms, e-commerce, property-management systems, and custom WordPress themes. Leverages AI-assisted development tools such as **Claude Code** to accelerate production while maintaining code quality, and collaborates within Agile teams to deliver impactful results.

TECHNICAL SKILLS

- **Frontend:** Next.js (Strong Proficiency), React, React Native, TypeScript, JavaScript (ES6+), Tailwind CSS, Radix UI, Shadcn UI
- **Backend:** Node.js, Supabase, PHP
- **Databases:** PostgreSQL (Supabase), MySQL
- **CMS:** WordPress (Custom Theme Development)
- **AI & Payments:** OpenAI, Google Gemini, Stripe
- **APIs & Libraries:** Leaflet Map API, Google Maps API, Three.js, React-Charts, Plotly.js, Math.js, Nerdamer, KaTeX, jsPDF, HTML2Canvas
- **Tools & Platforms:** Git, Vercel, Claude Code (AI-assisted development)
- **Methodologies:** Agile, Responsive Design, Performance Optimization
- **Other:** Inventory Management Systems, Real-Time Data Tracking, Financial Dashboards, Figma to Frontend

PROFESSIONAL EXPERIENCE

Full Stack Engineer | CooperBuild | New York, USA (Remote) | July 2025 - Present

- Engineer full-stack features for **RentJelly.io**, an AI-powered property-management platform spanning a Next.js web application and a React Native (Expo) mobile app, backed by Supabase and Stripe.
- Built **Millstandard.com**, a kitchen-furniture e-commerce storefront using Next.js, Supabase, and Stripe, featuring interactive Three.js 3D product visualization.
- Develop **CooperBuild.ai**, an all-in-one AI construction-management platform, using Next.js and TypeScript with integrated OpenAI-powered tooling.
- Collaborate asynchronously with a New York-based team to ship production web and mobile features in TypeScript.

Frontend Developer | Fusion Technologies, United Kingdom | July 2025

- Collaborated with the CTO on the development of a customized **Next.js** multi-tenant CMS.
- Designed and implemented core, reusable UI components for tenant-specific dashboards, ensuring scalability.

Freelance Full-Stack Developer (Part-Time) | Private Client, Morocco | March 2025 - Present

- Designed and developed custom **WordPress** themes for editorial travel publications (TXHeadlines.com, NavigateYourState.com) using PHP, Tailwind CSS, custom Gutenberg blocks, and vanilla JavaScript.
- Developed nine (9) responsive online tools using **Next.js** and Tailwind CSS, focusing on performance and accessibility.
- Implemented comprehensive **internationalization (i18n)** for English, Spanish, German, and French using Next.js built-in features without external libraries.
- Integrated libraries like Radix UI and Shadcn UI to create user-friendly interfaces.
- Optimized application performance using Next.js features like the App Router and server components.
- Ensured mobile responsiveness across all tools.

Full-Stack Web Developer (Next.js Focus) | ScrapCycle PH IT Solutions (Government-Funded Startup), Philippines | July 2024 - February 2025

- Built the frontend of key features for a waste-management application using **Next.js** and Tailwind CSS, ensuring smooth performance and user engagement.
- Collaborated with the CEO/Project Manager to deliver features on time for deployed applications.
- Integrated backend **API endpoints** to display real-time data within Next.js dashboards.
- Ensured **pixel-perfect implementation** of designs for user-facing components.
- Developed responsive interfaces for landing pages and user dashboards.

Web Developer Intern | Caraga State University TBI (Technology Business Incubator), Butuan City, Philippines | January 2024 - May 2024

- Developed a comprehensive events-management system using **Laravel PHP** and PostgreSQL.
- Implemented file-management features, allowing users to upload and manage event-related documents.
- Developed reports-generation functionality to provide insights and summaries of event data.
- Gained experience in backend development, database design, and application logic.

EDUCATION

Bachelor of Science in Information Technology | Caraga State University - Main Campus, Butuan City, Philippines

College of Computing and Information Sciences

- Relevant Coursework: Built web applications with Laravel (PHP) and Flask (Python), focusing on backend APIs and database management.

ADDITIONAL INFORMATION

- **Languages:** English, Filipino, Cebuano
